Definitions

1. LGBTQ - The acronym LGBT stands for “lesbian, gay, bisexual, and transgender” and is a term that generally refers to a group of people who are diverse with regard to their gender identity and sexual orientation (also, “LGBT community”). Sometimes the acronym is depicted as “LGBTQ” to include those who may be questioning their sexual orientation or gender identity.
2. Sexual Orientation - The preferred term used when referring to an individual’s physical and/or emotional attraction to the same and/or opposite gender. Sexual orientation describes how people locate themselves on the spectrum of attraction.
3. Gender Identity - A person’s basic sense of being a man, woman, or other gender (such as transgender). Although many people identify with the gender assigned at birth, some people with male anatomy identify as female, and some people with female anatomy identify as male.
